What we do.....

Airport Finance and Administration

- Ensures financial integrity of the airport
- Administers all federal, state, and local grant programs
- Interacts with multiple local and civic organizations promoting air service development and marketing initiatives

Airport Maintenance and Facilities

- Maintains first-class aviation facilities that are safe, clean and efficient for passengers and tenants
- Trains, equips and fields well qualified maintenance technicians who are professional, friendly, and highly motivated
- Manages vehicle, equipment and supply inventories; acquires equipment, fixtures, furniture and related supplies as needed

Airport Operations and Security

- Ensures compliance with all federal, state and local regulations, laws and ordinances
- Manages all airport safety, security, environmental compliance, wildlife hazard mitigation programs and conducts all related training
- Responds to emergency situations and implements contingency plans

Airport Rescue Fire Fighting

- Maintains constant aircraft rescue and firefighting readiness
- Responds to all airport emergencies, accidents and incidents
- Conducts airfield safety, and security inspections

Awards and Recognition

- The Great Lakes Region of the Federal Aviation Administration presented the Rapid City Regional Airport with the 2011 Airport Safety Award for the accomplishment of significant safety enhancements. The Airport has had an outstanding record of Part 139 safety inspections with 9 out of 10 inspections resulting in no violations.
