

RapidTRIP 2045 Metropolitan Transportation Plan RFP Questions and Responses:

Q: The RFP says that current and year 2045 population and land use inventories and forecasts have been developed. Will these be provided broken down by TAZ?

A: The data will be provided by TAZ for use in the Travel Demand Forecast Modeling effort.

Q: Do you anticipate any of the TAZ's to change or new TAZ's to be added?

A: As the TAZ are built on Census Blocks, we do not anticipate any changes to the TAZ structure until after the 2020 Decennial Census is complete.
