EXAMPLE OF POSSIBLE RAPID CITY ROUTE

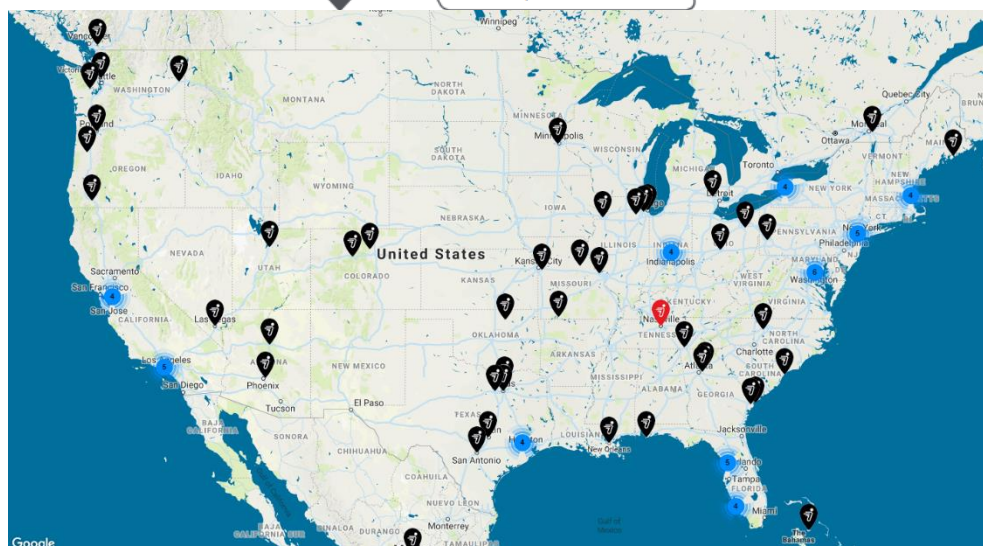

A HISTORY OF SEGWAY PT TOURS

The Segway® Personal Transporter (PT) was designed to safely move pedestrians more quickly than walking. However, it quickly became clear that its attributes were a perfect fit for the tourism industry.

The first Segway PT tours opened in early 2002 shortly after the PT hit the market. Since that time, the Segway PT tour business has grown to include hundreds of tours in the United States as well as thousands of tours worldwide.
