11.1 Reviews: June 18, 2018 – August 13, 2018

a) 816 ½ St. James Street – A demolition permit was requested to demolish two non-contributing outbuilding structures. City and SHPO determined no adverse effect to historic property on 9/18/18. Any new construction on the site will be reviewed prior to issuing a construction permit. 18RS013/CIHR18-0032.

Hanzel reviewed the 11.1 Review and noted that a new structure will be built on the property. She added that the proposed height of the new structure will need to be reviewed.

b) 817 Quincy Street – 18RS014/CIHR18-0031 Demolish structure outside of environs (corrected needed to boundary on Rapid Map)

Hanzel advised that this property is located outside of the environs and the district boundary was incorrect.

c) 1314 11th Street – A stop work order was issued for the replacement of siding and windows without a permit. Historic review/Case Report is pending following decisions to be made by the property owner.

Hanzel advised that there is a Stop Work Order on this property because the new owner did not have permits prior to starting the work on the property. She noted that new vinyl siding has been installed on the structure. She added that the windows were replaced with 8 over 8 windows with sliders instead of double hung windows. She noted that the owner would consider removing the vinyl siding but is not willing to change the windows. Hanzel stated that she has encouraged the owner to give some consideration to replicating the original framing around the front door.

d) 1514 West Boulevard is a non-contributing structure in the West Boulevard Historic District. A permit was requested to replace, and relocate one window on the north side of the structure. City and SHPO determined the proposed project will not have an adverse effect to historic property on 9/27/18. 18RS015/CIHR18-0034

Hanzel advised that there were no issues with this property.
