Re: Displays and Events Policy Revisions

Move: Move to approve revisions to the Displays and Events Policy as presented.

Background: The Displays and Events Policy identifies how decisions regarding displays, publications, art and events are planned to promote the library and its services.

The main addition to the policy allows staff to address community organizations posting their own signs and publications outside of meeting rooms. This change will allow us to better maintain a welcoming and well-kept public space as well as the library's image in the community.

Other updates to the policy are recommended to clarify language and update terminology.
