Planning Commission Criteria and Findings for Approval or Denial	
Pursuant to Section 16.08.120.E of the Rapid City Municipal Code the Planning Commission shall consider the following criteria for a request to Vacate right-of-way:	
Criteria	Findings
1. The vacation serves the interest of the City by removing maintenance or liability risks.	East Boulevard is identified as a Principal Arterial Street on the City's Major Street Plan requiring a minimum of 100 feet of right-of-way. The proposed Vacation will maintain a right-of-way width of approximately 115 feet. Public Works supports the Vacation provided that a construction easement and a public utility easement are dedicated in the area of the proposed Vacation.
2. The property interest being vacated is no longer necessary for City operations.	Public Works staff has indicated that the reconstruction of East Boulevard will locate a water main in the area to be vacated. Public Works staff has indicated concurrence with the proposed request provided that a temporary construction easement and a public utility easement are dedicated in the area to be vacated.
3. The land to be vacated is no longer necessary for the public use and convenience.	As noted above, Public Works staff has indicated that due to the future reconstruction of East Boulevard a temporary construction easement and a public utility easement will be required for the area to be vacated.
4. The vacation will not create any landlocked properties.	It appears that the adjacent property to the east is accessed from the alley. The proposed Vacation of Right-of-Way will not create any land-locked properties.
5. The vacation will not render access to any parcel unreasonable.	As noted above, access to the adjacent property will not be affected by the proposed Vacation.
6. The vacation will not reduce the quality of public services to any parcel of land.	The approval of the Vacation will ensure that a temporary construction easement and a public utility easement are dedicated for the future reconstruction of East Boulevard.

The proposed Vacation maintains more than the minimum required right-of-way needed for an arterial street.
