Planning Commission Criteria and Findings for Approval or Denial	
Pursuant to Section 17.50.050(F)5 of the Rapid City Municipal Code the Planning Commission shall consider the following criteria for a Major Amendment to a Planned Development Overlay:	
Criteria	Findings
1. There are certain conditions pertaining to the particular piece of property in question because of its size, shape, or topography:	The subject property is 0.4 acres in size and is zoned Office Commercial District. On September 5, 2002, the Rapid City Planning Commission approved a Major Amendment to a Planned Development Overlay (File# 02PD041) to allow a group home on the subject property to serve victims of domestic violence. The applicant is now proposing to construct a 2,046 square-foot outdoor play area for the children of clients served by the group home. The proposed play area is located on the north side of the primary structure on the lot adjacent to Quincy Street and will be screened by a 7-foot high opaque screening fence. Pursuant to Rapid City Municipal Code section 17.50.340, no fence taller than 4 feet in height may be allowed in the

	front yard of any commercial district property. The applicant is requesting an Exception to allow the seven foot high opaque screening fence in lieu of the maximum allowed height of four feet.
2. The application of these regulations to this particular piece of property would create a practical difficulty or undue hardship:	The applicant is proposing to construct a 2,046 square-foot outdoor play area to be utilized by the children of clients served by WAVI, Inc., a group home for victims of domestic violence. A group home is a Conditional Use within the Office Commercial District. In 2002, the Rapid City Planning Commission approved a Planned Development Overlay application to allow a group home on the subject property with the stipulation that any expansion of use would require the review and approval of a subsequent Major Amendment to the Planned Development Overlay.
3. Exceptions to the underlying zoning district, if granted, would not cause undue hardship to the public good or impair the purposes and intent of these regulations:	<p>On October 1, 1991, the Rapid City Zoning Board of Adjustment granted a Variance to allow a 10-foot front yard setback for the property in lieu of 25 feet required. Additionally, in 2002, the Rapid City Planning Commission approved Exceptions to reduce the required side yard setback from 25 feet to 0 feet on the eastern lot line of the property and to reduce the required parking for the group home from 25 spaces to 19 spaces as part of a Planned Development Overlay application to allow a group home on the subject property.</p> <p>As part of this application, the applicant has requested an Exception to allow a seven-foot high opaque screening fence in lieu of a maximum height of four feet allowed in a front yard. The proposed fence is intended to provide privacy and security for clients of the associated group home, WAVI, Inc. The proposed fence height is based on federal recommendations for privacy fences utilized by group homes serving vulnerable clients. Public Works staff has indicated that the proposed fence does not obstruct any sight triangles on Quincy Street or 6th Street. As such, staff recommends that the Exception request to allow a seven-foot high fence in lieu of a maximum of four feet be granted.</p>
4. A literal interpretation of this chapter would deprive the applicant of rights that others in the same district are allowed:	Group Homes are listed as a Conditional Use in the Office Commercial District.
5. Any adverse impacts will be reasonably mitigated:	The stipulations of approval of this application will serve to reasonably mitigate any adverse impacts.
6. The requested exception to the underlying zoning district standards is an alternative or innovative practice that reasonably achieves the objective of the existing standard sought to be modified:	The requested Exception to allow a seven-foot high opaque screening fence in lieu of a maximum of four feet allowed in a front yard is intended to provide privacy and safety for clients served by the associated group home, WAVI, Inc. WAVI, Inc. provides services to victims of domestic violence and the screening fence is intended to provide privacy and discretion for clients and their children while receiving services from the group home.
