

Side Walk Variance Request

I Brandon George owner of property at 2431 Emerson Lane am requesting a sidewalk variance. At this point there is no other sidewalks in the business park that my building is located in. The property directly next door is just being built and did receive a sidewalk variance. This is a commercial building permit # CIBP18-2449. The nearest sidewalk with a bike path is on Seger Dr. approximately 675 feet away from my property. The variance is submitted as allowed by section 12.08.060 of the Rapid City Municipal Code.

Thank you for your time in this matter

Brandon George
