**Discuss and determine potential next steps for pending deterioration by neglect case in the Commercial District**
Hanzel informed the Commission that staff has received complaints from community members and tenants about the condition of a historic building in the Downtown Commercial District. She added that the City is currently reviewing ordinances to determine what options are available. Discussion followed. The Commission determined that they would make a site visit to observe the condition of the structure.

**Discuss administrative review of non-contributing buildings**
Hanzel explained that the administrative review process for 11.1 Reviews meets the criteria to ensure that improvements being made to historic structures do not have an adverse effect on the property.

Roseland expressed his opinion that the proposed porch at 923 West Boulevard does not fit the neighborhood and would change the street scape.
Hanzel added that the Planning Commission denied a Variance to the Zoning Ordinance for reduced setbacks and maximum lot coverage for the proposed porch. She added that the applicant can resubmit a new application. Additional discussion followed.

Riker suggested that if a new application is submitted, then the administrative review process be followed and that the information be provided to the Commission members as an update.
