EXHIBIT A
SCOPE OF SERVICES
ENCLOSED BLOWER/FLARE SKID PLC PROGRAM TROUBLE-SHOOTING ASSISTANCE

The City of Rapid City (City) has determined the need for assistance with trouble-shooting the PLC program associated with the existing enclosed blower/flare skid. The following tasks detail the approach that we recommend for assisting the City at the City Landfill:

1. Review of the Ladder Logic associated with the existing PLC Program.
2. Schedule a site visit to evaluate the Blower/Flare skid components and observe the behavior of the blower/flare skid system.
3. Provide recommendations for addressing any issues discovered during trouble-shooting of the existing blower/flare skid.
4. If required, communicate with the flare manufacturer concerning recommendations to update PLC Program.
5. If possible, upload the revised program prepared by the blower/flare skid manufacturer into the PLC.

Assumptions

To develop the Scope of Service and Project Budget, we have made the following assumptions:

- All information (hard-copy and/or electronic) will be provided by City.
- The cost of providing this assistance includes travel time to Rapid City, miscellaneous/travel expenses and no more than 2 days of time onsite to evaluate the blower/flare skid PLC Program.
- Sub-consultant services provided by Practical Controls will be considered as a reimbursable expense for billing purposes by Franklin Engineers and Consultants for billing purposes in accordance to Exhibit C of the original contract.
- PLC Reprogramming will need to be prepared by the blower/flare skid manufacturer.
