Lacock presented the applications and reviewed the associated slides. Lacock noted that the property was previously operated as a church and had most recently been used as a child care center for the YMCA and it is now being requested to allow a joint use of a church and a theater. Lacock also noted that the rezone from Medium Density Residential District to General Commercial District is to enable this use. Lacock noted the applicant is requesting an Exception to reduce the minimum required parking from 55 spaces to 32 spaces and to allow parking to back into the right-of-way stating that with the proposed change to access to the parking area and the addition of the on-street parking staff supports approval of the Exception request. Lacock stated that staff recommends approval of both the Major Amendment to the Planned Development Overlay to allow a theater and church in the General Commercial District and the Rezoning from Medium Density Residential District to General Commercial District.

In response to Quasney on the parking, Lacock stated that the parking is designed to allow the required aisle width. Quasney stated that he worries that there might be a parking shortage for the proposed 200 seat use of the facility.
Stephen Farruggia, 7029 Freedom Court, owner of Seraphim Theatrical Entertainment stated that he is here to answer any questions.

In response to a question from Heikes, Stephen stated that the hours of operation for the theater is set for Saturday between 11:00 a.m. and 1:00 p.m. and weekend evenings from 5:00 p.m. to 9:00 p.m. Heikes stated that due to the hours of operations, that there might be available parking in the area that could be used without causing issue.

Fisher clarified that between the parking in the lot and the on-street parking there are 69 spaces which meets the parking requirements and there are no known complaints on parking for the previous child care center at this location.

Vidal and Quasney both agreed this is a great reuse of the property.

Vidal moved, Quasney seconded and the Planning Commission recommended approval of the Rezoning from Medium Density Residential District to General Commercial District, and; Approved the Major Amendment to a Planned Development Overlay to allow a theater and a church in the General Commercial District be approved with the following stipulations

A request by City of Rapid City to consider an application for a **Resolution Adopting the Rapid City Tax Increment Financing.**

Horton presented the application briefly reviewing the requested changes from the November 21, 2019 Planning Commission meeting. Horton called out three minor corrections including language on Page 11 identifying that loan origination fees are eligible costs as part of interest expense, Page 14 needs reference to the financial corporations to ensure that there are conflicts of interest with newly organized agencies, and Page 23 to remove the underlining. Staff believes this final version provides a great compromise and recommends approval of both the Ordinance to Update the Tax Increment Financing District Review Process by Amending Chapter 3.26 of Rapid City Municipal Code and the Resolution Adopting the Rapid City Tax Increment Financing.

Young encouraged approval of the Ordinance and associated Resolution citing all the work that has gone into this policy revision over the last two years by staff, local developers, the financial sector and other City entities. Young noted all the public meetings and the numerous reviews before the Planning Commission has culminated in a good proposal.

In response to Herr’s question why no member of Planning Commission is on the Tax Increment Finance Committee, Horton stated that Tax Increment Finance applications will be treated as any other development application and will be reviewed by staff. Once staff has completed the review the Tax Increment Financing application will go to the Planning Commission for public hearing.

Bulman stated that this she believes this is a good option and that if there are changes that are needed they can be made when and if they show their need. She expressed her support for the two items.

Heikes noted that he believes the document has been well vetted and that the lack of developers in attendance indicate that they are satisfied.

Quasney spoke to all the work and input that was put in to this process and stated that he believes it is ready to move forward.

Braun thanked staff for their work on this noting all continuations for additional changes were worth it.

Roberts left the meeting at this time.
