Re: February 3, 2020 City Council Agenda Oversight

Dear Council Members:

I am contacting you to bring to your attention an oversight involving the agenda from Monday night's City Council meeting. The session adjourned after a single motion approving items #40-48 from the public hearing portion of the agenda. Items 43-48 were listed as non-consent items, but their titles were not read into the official record. Items 43-47 included five rezone applications, all with recommendations for approval. Item 48 was a vacation of public right-of-way.

The rezones were approved without the benefit of being read individually. Since rezones are ordinances requiring two readings of the title prior to approval, these items will be placed on the Tuesday, February 18 City Council agenda for final approval.

The oversight was mine, and I take responsibility for any inconvenience this may have created. At my direction, Community Development staff has contacted the applicants, and no negative impacts are expected. I have also directed staff to accept any further development applications for the properties affected, so that no potential progress will be impeded pending formal approval by the Council at the February 18 meeting.

Please let me know if you have questions or would like further information.

Sincerely,

Steve Allender, Mayor
Rapid City, South Dakota
