Traffic data shown is collected via short-term traffic counts of 1-2 days. Short-term counts are taken only when weather permits, usually March through October. These counts represent a "snapshot" of traffic conditions during the particular collection period, and as such, do not provide a complete picture of the traffic conditions on an average day. The burden for determining accuracy, completeness, timeliness, or completeness rests solely on the user. The Rapid City Area MPO makes no warranties, express or implied, as to the accuracy, completeness, timeliness, or completeness of the Data, on the user. The Rapid City Area MPO makes no warranties, express or implied, as to
