Dear Ms. Sumption,

I'm writing you in regards of my denial for an individual security license. I am asking that my situation be placed on the Rapid City Council agenda for a hearing before the Common Council.

I believe there to be bias in this conflict due to me being a former Correctional Officer at the Pennington County Jail and the accusations pending at the time.

In all, I still have a clean record with no convictions and a security clearance through the Army National Guard with the Department of Defense.

In conclusion, I know I'm over qualified for a security license and job as a security guard. Whether its in a different city, town, or state I do want to stay in this line of work, particularly the Rapid City area.
