I am a life-long Black Hills resident and have lived in Rapid City since beginning my undergraduate degree at SDSM&T in the fall of 1991. Rapid City is my home and I am interested in improving the community for all residents. The decision whether to adopt a home rule charter and recommending the contents of a proposed charter to the voters will be the most important decision in local government since the decision to incorporate as a municipality. My educational background as a lawyer, my experience working in municipal law and more than eight years of experience in the private sector would provide the Home Rule Charter Committee with a unique view point. I would bring insight to the Committee from the perspective of a resident, taxpayer, volunteer, private sector business, and an inside view of City government. I have many years of experience working with public and private non-profit Boards and committees, as both a Board member and as a staffer providing support to volunteer Board members. My interest in serving the community along with the combination of my education, work and volunteer experience makes the Home Rule Charter Committee an ideal avenue for me to continue to make a positive impact on my home community.

I would like to serve in the indicated position(s) because::

Since I took my first Civic's Course in high school, I have had a strange fascination with government and politics, both in it's functional and dysfunctional aspects. That led me to a political science major at Augustana College, a Law Degree from USD, and a career in the City Attorney's office. Working in the City Attorney's office, I attended countless Committee and Council Meetings. In addition, I worked with several different Mayors and new council members. I quickly learned the positive and negative results of the turnover in elected officials and the power that instills in the City Staff. When Keith Carlyle was Mayor in 1989, he was interested in the option of changing Rapid City to Home Rule, and I did research on Home Rule for him

There is a concerning trend nationwide for States to want to limit or pre-empt local authority. Although I do not have a strong opinion on Home Rule's appropriateness for our City, I do believe in local authority and the concept that local elected leaders are the most accountable and in the best position to make decisions that affect their citizenry.

Having spent so much of my life in meetings, I do have a strong skill set for processing conflict in meetings. In order to be a potential member of the Home Rule Charter Commission, I believe it would be my responsibility to regularly attend the meetings. be prepared and listen to the research and information provided.

Ultimately, I believe that it is the committee's duty to put aside our biases, as much as possible, to determine what is in the best interests of the future of our City, which has so much untapped potential.

I appreciate your consideration of my appointment to the Home Rule Charter Commission.
