**Interior Notes:**

**Physical Notes:** A five bay brick Italinate building, first level centered entrance provides access to the upper level and is flanked by modern storefronts (1953). Second level originally had four large double hung sash windows with stone sills and round arched molded brick hood molds; two to the east have been converted into a single picture window, the fifth window in the middle of the facade has a semi-elliptical brick hood mold; the opening has been infilled with glass block; a molded brick beltcourse connects the windows; corbeled brick bands form the stepped cornice, and pilasters delineate the buidling"s outside walls. See number 12878.
