MEMORANDUM

TO: Rapid City City Council

FROM: Kip Harrington, Planner III

DATE: January 14, 2021

RE: Cambell Street Structure and Multi-Modal Routing Study Add-On

At the January 14, 2021 Council Working Session meeting, the idea of adding the East Saint Patrick Street railroad crossing into the Cambell Street Structure and Multi-modal Routing Study was suggested. After internal discussions among Staff, and external discussions with the South Dakota Department of Transportation (SDDOT), Staff recommends moving forward with a separate study specifically addressing the East Saint Patrick railroad crossing in early 2022.

This separate study would involve the Rapid City, Pierre and Eastern Railroad as a partner in identifying recommended solutions to address the traffic delays at the East Saint Patrick Street railroad crossing. Staff anticipates that transportation planning funding will be available in 2022 to perform this proposed study.
