Comment:

I fully support Laura Armstrong on City Council. She is a phenomenal leader with impeccable and admirable ethics. She continues to create an atmosphere where the community's wellbeing and health are the epitome of her decisions. I humbly ask that she continue her critical progress within the city by dismissing these allegations. She is an influential and prominent leader that we as a community need. Thank you

Agenda Item: Support for Laura Armstrong

Comment:

Once again I am writing to express my support for Council Member Laura Armstrong. The relentless criticism of her actions is petty and pointless. Hiding behind a cloak of "liberty" and "individual responsibility" does not work when our community and the rest of the world are fighting a pandemic. I urge members of the Council and citizens of Rapid City to support Ms. Armstrong and countless others who value science above lost cause emotion.

Respectfully,

David Super

I'm writing in support of Laura Armstrong's leadership as President of the City Council.

Councilwoman Armstrong has acted with total integrity in the interest of protecting the public good in this global pandemic.

My family is immunocompromised, and I believe the leadership of those like Councilwoman Armstrong has helped us make it this far into the pandemic without contracting COVID-19.

As a small business owner in the Black Hills. I believe in transparency in the marketplace – members of the public have a right to know and support the businesses that are following recommended guidelines of the Centers for Disease Control and Prevention.

Comment:

Dear City Council:

This letter is to inform you of my full support of Council Member Armstrong's ability to serve with equity, inclusiveness, thoughtfulness and integrity.

Ms Armstrong has undergone recent allegations of unfair practices after a social media page revealed which local businesses are complying with CDC guidelines due to the pandemic. This information is reliable and helpful to members of our community who are at greater risk for infection and need to continue with their lives in the safest way possible.

I do not support a censure, a removal from office, or dismissal from the board.

I call upon our city council to put this pettiness aside and allow Ms Armstrong to continue working diligently with the city council on the important issues our community is facing.

Thank you for your thoughtful consideration and for moving forward with positivity and integrity.

Respectfully,

Justin Speck

Comment:

I support Laura Armstrong. She helped to provide a service to the public in identifying businesses that require masks. We are in the middle of a global pandemic, though so many in SD do not seem to understand the severity of this virus or simple measures that we may take to protect ourselves. For that reason those of us who believe in masks as one tool we have to protect ourselves appreciate information that helps us to stay healthy. No business is censored by this action, and no one is prohibited from patronizing any business. It is just information. Why information scares some people is interesting, isn't it? It is unfair to demonize Laura in this way. She is doing her job as an elected official to work for the people. I am her constituent, in her district, and I am grateful for the work she does on our behalf.

Comment:

This is pretty simple, it's about science. Science tells us if we want to get back to "normal" we need to wear a mask. Simply to prevent the spread of the virus. Is it fun? No. This is not an issue about fun or comfort. It's about science. A list of businesses following CDC guidelines, which are backed by science, is helpful information for those following the science. Let's put our energy & time into supporting our community getting back to our healthier, kinder selves.

Comment:

I support Laura Armstrong and applaud her efforts to keep Rapid City safe during the COVID pandemic. Her Facebook postings have helped consumers make informed choices regarding their safety. Representative Phil Jensen, who purports to champion free markets, should understand that the freest market is the one that incorporates and offers the most information to consumers. Ms. Armstrong's social media posts have offered this benefit to our community.

Protecting our health is both our duty and our right; Ms. Armstrong's own rights are guaranteed by the First Amendment. I question the motives of anyone who challenges either.

Meeting: City Council

Comment Type: Public Comment Agenda Item

Agenda Item: Laura Armstrong, Council President

Comment:

Laura Armstrong strongly believes that masks are a personal protective item that should be worn by all citizens who are out in public places where they may become infected with the lethal coronavirus, or they may be carrying the virus and will infect others. There are many others who also believe in this guidance from the CDC as is evident by the numbers of local people of all ages who are voluntarily wearing masks in our city. We all need to continue to try to keep ourselves free of COVID19 and the many new strains now appearing in our country and state that continue to escalate the death toll. According to John Hopkins University data, the pandemic we are in has killed more than 408,000 Americans in less than 337 days. Comparatively 405,399 American soldiers died fighting in World War II over a period of 1,347 days.

Ms. Armstrong is a dedicated public servant who works tirelessly for others and she should be retained.

Agenda Item: Code of Conduct Complaint of Alderwoman Armstrong

Comment:

I support Laura Armstrong as a Rapid City Alderwoman and Council President.

She is a dedicated and hardworking leader who has demonstrated genuine care and compassion for her community and its citizens. The disgruntled few that have voiced their opinion, do not speak for the majority of Rapid City residents. Alderwoman Armstrong's statements and actions have been based on scientific facts, CDC recommendations, common sense and concern for the health and safety of every member of our community.

I believe Alderwoman Laura Armstrong is an asset to the Rapid City City Council and to Rapid City. There should be no question as to her character, integrity, professionalism, or intentions. Alderwoman Armstrong exemplifies the characteristics of true leadership and should not be reprimanded, but should be praised for her commitment to making Rapid City a safer place during these unprecedented times!

Agenda Item: Complaints against Alderwoman Laura Armstrong

Comment:

Does this Council and Mayor plan on going after a woman leader every year now? If Ms Armstrong's scientific, reasonable and compassionate approach had prevailed at the city, county and business level, maybe the toll of this pandemic would not be as horrifying as it is. Let's get to using our time wisely! Wash your hands. Mask up. Social distance. Stop the spread. Stop the variants. Tend to the long haulers in our city now. Extend condolences to the families in mourning. COVID-19 deniers need leaders not enablers. Thank you to Laura for doing her duty and taking the heat for taking public health measures including on social that are necessary for life and health right now. Our COVID-19 community relief project has heeded the call for masks by distributing over 15,000 to Rapid City since June 2020. What are you all doing to address that 1 out of 500 South Dakotans are dead due to COVID-19? Hearing complaints against Laura doesn't count.

Agenda Item: Laura Armstrong

Comment:

I greatly appreciate Ms. Armstrong's wonderful leadership. She is an advocate for our city and its citizens. It deeply saddens me the Council must take up this issue.

I appreciate the Caring Businesses Facebook site as a forum for what businesses are requiring/enforcing masks as I have several high risk family members. The vast majority of posts/comments I observed were respectful and factual. Although I am aware of other sites having a naughty list, I have not observed any such list on the Caring Businesses site.

Please make sure you are basing your information on facts and not hearsay.

Additionally, this seems to be a very slippery slope we as a city are approaching. What situation is going to call on one's character next? What yard sign is in a council members yard? Who a council member does business with? Who a council member talks to at church? What group a council member choses to be a guest speaker at?

Thank you.

Comment:

I want to voice my support for Laura Armstrong. I greatly appreciated Laura's effort early on during this pandemic to follow CDC guidelines concerning wearing masks to curb the spread of COVID-19 and social distancing. The Facebook group Caring Businesses of Rapid City has been a wonderful resource for me to be able to support local businesses who are like minded in the belief that wearing a mask is a sign of respect to others. Laura is committed to doing what is best for the residents of Rapid City as well as the outlying communities that Rapid City businesses support. She is willing to listen to science and understands the consequences of personal responsibility. The attacks against Laura are troubling and completely unfounded. Laura is a leader in our community who should be supported, not criticized for the hard work she does day in and day out.

I'm submitting my comment in support of Councilwoman Armstrong. This community and this state has decided that it would take a 'choose your own adventure' approach to covid. Now, a small but vocal group decided to complain when some citizens decided it was best for us to only go to places with a certain level of precautions in place. It shouldn't really matter why we choose not to shop or eat at places without precautions—as I said, the community decided that everyone should choose what's best for them. There's no ill will behind this group. Quite the opposite. It's about supporting each other in our personal decisions. I urge you to support Councilwoman Armstrong and not let a small, vocal minority divide our community more.

Comment:

Last Fall Laura Armstrong asked me what the local medical community thought about COVID public health policy. Polling my colleagues led to a resolution by the Monument medical staff endorsing a mask mandate in RC. I testified twice before the mayor and Council about COVID management and the only stalwart advocate for policy based on expert science was Laura Armstrong. When they failed, she and others promoted free markets and free speech by informing consumers about responsible businesses adhering to safety guidelines. Now a few who believe the right to bare face trumps public safety, have attacked Councilmember Armstrong. My 90 year old parents are battling COVID for their lives in Mitchell. If officials at all levels of government had the courage and perseverance of Laura Armstrong, they would be safe at home. I don't know her personally, but she deserves a medal.

Comment:

It is apparent that a small vocal minority of citizens who continually attend city and school board meetings have one sole purpose in mind. To use these meetings as their own political pulpits from which they feel they have every right to defame others, and share their own opinions using tirades and their own one sided lens. They do not go to these meetings to see the whole picture or be helpful to our community. They use the armor of "free speech", but when an individual or group of any kind uses this same right but it maybe puts them in a bad light they immediately take offense. Their tactics are nothing more than a modern day witch hunt. While the council should investigate and question concerns that come from the community, I would hope as a collective group of leaders you look at facts and information with an objective lens as you have volunteered and been elected to do

I oppose the waste of our tax dollars on this meeting.

“Cancel culture” hecklers now seek to “cancel” Councilwoman Armstrong.

The City position is it’s “personal choice” and the “free market” to not wear a mask. Then it is equally “choice” to wear a mask.

Our businesses were given the “choice” whether or not to require masks - and every citizen in Rapid the “choice” to go there or not. Sharing information on each business’ “choice” so individuals can make their “choice” is literally how the “free market” works.

It’s the ultimate hypocrisy to claim “choice” and “free market” for no masks then cry foul when others use “choice” and “free market” for use of masks. You cannot have it both ways.

Councilwoman Armstrong was duly elected by her constituents, and this Heckler’s Veto is a waste of city resources.

I am writing this in support of Laura Armstrong. Laura's involvement in the Caring Businesses group should not be considered a code of conduct violation. The Facebook group has been a great service to our community for those seeking this information. The group is a helpful resource, not a place for business shaming or poor experiences. There is no "naughty list".

The Code of Conduct says officials are to demonstrate the highest standards of conduct, personal integrity, & honesty. I believe Laura exemplifies these characteristics. She might have strong opinions, but she would never do anything to harm the people of RC.

Ask yourself this. Does she have integrity, does she take her role on City Council seriously & does she make decisions with our community's best interests in mind. If you truly reflect on that, & are mindful of your own responsibility to the code of conduct, I hope you will vote for no punishable action.

Comment:

I have recently become a resident in Laura's district. I have not been able to attend any of the city council meetings for several reasons, mainly because I'm trying to social distance. I feel that Laura is using facts as well as true compassion for others in her request for masks and social distancing. I honestly feel she has the best interest of our city in mind. I have known Laura for 20 years, I have worked with her and have always admired her ethics. She is passionate about her beliefs and she is using facts to back these beliefs up. She isn't out to run businesses into the ground- what would be her motive for THAT? She isn't out to take away anyone's freedoms. She is simply looking to keep the city safe and well. I trust she has my best interest in mind. I am proud to say I support her, I am even more proud to say I live in her district. I am grateful for her and her efforts.

Comment:

The Citizens for Liberty appear to be lodging a complaint against one of our finest City Council members, Laura Armstrong. This small group of people don't appear to understand we all have liberties, and Laura is standing up for the liberties of other citizens. This group seems to be bullies, as well.

Laura Armstrong has been a rock during this pandemic, trying her best to keep the citizens of Rapid City safe. We each have our individual liberties, not just the Citizens for Liberty. Laura's actions have helped us, who take this pandemic seriously, stay safe by recognizing which businesses are taking steps to keep their customers safe. I applaud her actions. Keep Laura on the City Council and her voice heard for us!

Comment:

This comment is to support Laura Armstrong. I appreciate deeply her attempts to encourage common sense observation of mask wearing to help curb the spread of COVID-19. As a resident of Westhills Village, senior retirement community, I am very aware that the CDC guidelines need to be observed by all citizens for them to be effective.

The brouhaha about a list of businesses favorable to helping people who cannot enter a business place is not worth the fuss. If apartment residents at Westhills Village choose to enter business places, we must quarantine ourselves for 14 days after. This rule is intended to protect us all from COVID-19. So far, it has worked quite well. Thus, a list of places which offers curbside service is a lifesaver for us.

Please do not censure Laura Armstrong for exercising her freedom of speech to help us.

Comment:

It is my understanding that the Citizens for Liberty (CFL) have alleged that Laura Armstrong's support for both wearing masks, and for the business that require them, is overstepping her position of authority and infringing on their freedom. Their claim is outrageous, and motivated by politics.

Laura's voice on City Council speaks for me and citizens like me who look to our leaders to protect our freedom to move about the city without risking injury or potential death from a virus, just as smoking laws protect us from second hand smoke and traffic laws protect us from wreck less drivers. We seek a voice in our city government that will protect our rights, and Laura Armstrong is our brave and compassionate voice.

Do the right thing and end this harassment. Tell the Citizens of Liberty that our democracy doesn't silence the voices with whom we disagree, but rather creates a dialogue with them.

Comment:

I wrote as a business owner in Rapid City regarding the Council's consideration of action on Laura Armstrong. Complaints based on rumors and dislike of the stance in favor of mask mandates are unwarranted. I watched both Council sessions. Ms Armstrong spoke the truth in a professional way in the face of incivility, threats, and disrespect by several community members and one council member. Her comments were not unfactual or unprofessional. The rumor of a list of businesses is just that: a rumor. Dismissal based on the facts is warranted. When elected leaders can no longer speak the truth our democracy is doomed. I have spoken before city council and had a council member accuse me personally of improper motive and improper action for speaking. I did not file a complaint. Democracy requires that we let our elected leaders speak. Council members should be held to the same standard.

Dear Rapid City Common Council,

I have heard about efforts to reprimand and/or remove Councilmember Laura Armstrong regarding her involvement in promoting business which choose to prioritize the health and wellbeing of their employees and customers by implementing CDC recommendations regarding COVID-19. I would like to strongly urge members of the Common Council against giving these misguided, selfish impulses any credence. Ms. Armstrong ought to be applauded for taking the health of our community seriously. I personally feel uncomfortable entering establishments where masks are not required, and I am grateful for efforts to hold up business that are acting responsibly in the midst of a global pandemic. Please reject any efforts by Citizens for Liberty or any affiliated individuals as what they are: selfish irresponsibility.

Sincerely,

Julie Santella

Comment:

Heckler's Veto. I oppose the waste of our tax dollars on this meeting. "Cancel culture" hecklers now seek to "cancel" Councilwoman Armstrong.

The City position is it's "personal choice" and the "free market" to not wear a mask. Then it is equally "choice" to wear a mask. Our businesses were given the "choice" whether or not to require masks - and every citizen in Rapid the "choice" to go there or not. Sharing information on each business' "choice" so individuals can make their "choice" is literally how the "free market" works.

It's the ultimate hypocrisy to claim "choice" and "free market" for no masks then cry foul when others use "choice" and "free market" for use of masks. You cannot have it both ways.

Many asked Councilwoman Armstrong to show leadership, so she did. Councilwoman Armstrong was duly elected by her constituents, and this Heckler's Veto is a waste of city resources.

This has got to stop.

I appreciate anyone who will take a stand and advocate following CDC guidelines.

NOT following them by NOT wearing masks has not worked very well.

Having the highest amount of COVID in the entire nation at one point in time.

Continuing to act like we are NOT in a pandemic!

Continuing to have super spreader events (stock show etc).

Wearing a mask is the very least we can do for one another.

We need more people like Laura on the council.

Stop this witch hunt!

Comment:

I would like to file a comment in support of Ms. Armstrong. I have known Laura long before she became involved in local government but her heart has always been the same, one that helps others. Her convictions led her to the city council and for that, I'm grateful and proud.

I do not believe her intentions were malicious or that her comments were on par with cyberbullying. Laura's group was meant to be a resource for vulnerable citizens to make decisions about which business would accommodate them, not target businesses that wouldn't accommodate. Cyberbullying is not what I'd call frustration to ask for compliance in keeping themselves and others safe.

As far as I'm aware, local business hasn't been harmed by exclusion from her valuable resource. Every time I leave my house, I see more citizens shopping in stores where masks seem optional although they're posted as required. It seems that business is thriving everywhere anyway.

The on going argument is how we can live with Covid and safely come out on the other side. This virus is new to ALL of us! We have listened to those who know more on virology than we, but no one has the answers yet! Those that are in position to "lead us" do so with our best interests to protect ALL of us! And in this case, trying to protect our most vulnerable! I WANT to know who mandates mask so I feel safe shopping. I believe you have a bunch of red necks out there trying to cause trouble because they don't want ANYONE telling them what to do in regards to the safety of themselves or others. And to imply that Laura was urging others to boycott them, is ridiculous! Those same pot stirrers are at the stock show now without a mask because they have NO regard for their safety (or others) and have (the right) to jeopardize ME for the almighty dollar!

Leave Laura alone! Spend your time and energy on the REAL problems in this community!

Comment:

My daughter, Natalie Slack, and Laura Armstrong started a Caring Businesses page on Facebook to help people like my husband and I, who both have had cancer diagnosis in the past few years, find safe places to shop. Natalie, a small business owner, has spent many years helping other small businesses with their logos and their websites. Her work is visible all over downtown and across the Black Hills. She is invested heavily in our safety and in keeping Rapid City's local economy running. Laura did not overstep her leadership in supporting and working with Natalie in this effort - but rather used her reach to allow more at risk people, like myself, to have access to information and safety when there were no closures or mask mandates in effect. I've felt safer in Rapid City with this info.

Laura is a leader. I appreciate her consideration of those more vulnerable in our community and am writing in her support.

Thank you,

Agenda Item: Conduct complaint against Alderwoman Laura Armstrong.

Comment:

I believe the complaints against Alderwoman Armstrong are based on false claims. The page administrator, not Armstrong, was asking businesses following CDC recommendations to post. I listed our business on the FB page. Our business was not coerced, nor did we receive special recognition. Anyone could post. The page clearly stated disparaging comments/hate speech would be removed. Businesses/consumers were describing changes made to safely serve customers. I would point out Elevate RC was also allowing businesses to make similar posts on Elevate's social media. I appreciated the city and the Chamber allowing us to share how we were caring for our employees so we could pay them and stay open. We continue to put staff safety first, pay their wages and to keep our store open throughout the pandemic. Any statement that this website created a hostile work environment or gave special treatment to compliant businesses is simply untrue.

This comment is in regard to discussions of censuring Council Member Laura Armstrong.

While I am not a resident of the City of Rapid City, I office and do almost all my business there.

I have listened to council meetings in which mask ordinances were discussed, and appreciate Armstrong's willingness to stand up for public health. I have seen the social media group she is allegedly involved in and find no evidence that it is a "black list." Whatever her involvement, the page has been used to lift up businesses who follow CDC guidelines without disparaging those who don't.

The complaints lodged against Armstrong are an attempt to remove a duly-elected public official under false pretenses. Armstrong should be cleared of any wrongdoing. Those who have perpetrated this undemocratic action against her ought to be publicly reprimanded, and any council member who is found to have collaborated should themselves be censured or removed.

I'm writing to support Laura Armstrong against the bullying and threats and selfishness from anti-maskers and the so-called Citizens for Liberty who never stand for anything progressive or good for RC. Laura has done nothing but try to protect citizens during this pandemic by relying on science, kindness and common sense. Her stance on wearing masks as ONE of the KEY weapons against Covid19 spread is supported by every major scientific organization (CDC, NIH and WHO). Yes, the data IS in. Asking businesses to honestly tell the public if they are requiring masks is important because many of us do NOT wish to enter a business not requiring masks because of higher danger of being infected. This does nothing to inhibit the business' choice to protect or not protect its patrons. Laura should be applauded for her knowledgeable, compassionate service. That she is even being discussed negatively by the Council in this manner is appalling.

Rapid City Councilwoman Laura Armstrong is a true servant of the people - a leader not without flaws, but with self-awareness of her responsibility to grow and learn alongside the community she serves. It is our ability to disagree and move forward, that makes our government work - be it in Rapid City, or at the state and federal levels. Calls for Councilwoman Armstrong's removal are a politically motivated hit-job indicative of the "cancel culture" so often (justifiably) decried by those on the political right. We are not Pierre, we are not Washington, we are Rapid City - and we are better than this, so long as we resist the urge to govern according to the most base characteristics of our humanity.

Thank you for your service to this community and consideration of my comments,

Dexter Carman

We support Laura Armstrong. Ms. Armstrong puts the community's well-being ahead of her personal priorities. She listens deeply to opposing views & finds common threads of understanding. Her participation in "Caring Businesses of RC" illustrates her care & concern for the vulnerable in our midst. We appreciate efforts to identify spaces of safety that adhere to CDC guidelines during the Covid-19 crisis. Everyone is entitled to their own opinion, but "facts matter". Nowhere is there an intimation that businesses are being subjected to "harassment or blackballing". We elect leaders to "lead" & do the right thing by working for the health, safety & benefit of our community. We value our right to freedom of speech & honor its exercise to express all points of view respectfully. Silencing this right sends a chilling message across our community. We should strive instead to bring opposing views together to find areas of commonality.

Comment:

As a citizen of Rapid City and a strong supporter of fair and balanced government, I am disheartened by the fact this complaint against Councilwoman Armstrong is on the agenda and hope this non-factual and scurrilous complaint is summarily dismissed. At no point and time was the Facebook group referenced in the complaint ever a "blacklist" of businesses but was in fact well moderated to ensure negative comments were not allowed, and it is truly a public service for those members of our community that are immunocompromised, and have underlying health conditions making them more susceptible to the deleterious and deadly consequences of infection by the SARS-COV2 Virus. Ms. Armstrong, a licensed healthcare provider, has advocated for reasonable health & safety measures for our community and has not exceeded her purview as a Council Member. Please do not let a loud and vocal MINORITY assassinate the character of our Council President.

Comment:

I am writing today in support of Laura Armstrong.

I find it unfortunate that a strong leader of our community is being called out for helping inform it's citizens. Identifying businesses that follow CDC guidelines is not playing favorites, it is helping me be a more informed citizen. Clearly, not wearing a mask is a political statement that puts my health, your health, my parents health, all of Rapid City's health in peril. And to think that one of our leaders, who understands that, has put the health and well-being of EVERYONE in this community as a priority should be attacked for caring us, is unconscionable. Most days I am at a loss for words for the ignorant behavior I see in this town regarding this pandemic.

Today, I am not. Laura Armstrong has my full support and should be applauded as a leader in this community.

Agenda Item: Laura Armstrong Discussion

Comment:

Laura Armstrong has my unwavering support. I wish all our council members were as hard working , smart and caring as she. Laura always has the interest of our community and her constituents in the forefront of her mind and her agenda. Masking, and social distancing should be huge healthcare concerns to everyone in our community at this point in time. These issues are not about individual freedom. Your choice to wear a mask in our stores or public buildings in Rapid City affects the health and well-being of everyone around you. This is an issue about saving lives and protecting our parents, our families, our friends and colleagues. Anyone who disagrees with our need to mask, should be voted out of office.

Comment:

I am appalled to hear of the complaints against Ms Armstrong regarding her support if those of us who are unable to go into a business that does not promote mask wearing. I have been a citizen of this city my entire 64 years and am thoroughly ashamed of the members of this community such as Phil Jensen, who are so disrespectful and derisive towards Laura in her efforts to help residents such as me who have Heath issues which prevent us from entering establishments not requiring masks. What has happened to human decency? Without the information Laura Armstrong offered, I wouldn't be able to shop in this city. I am grateful for Laura Armstrong for her thoughtfulness for the all citizens in this city, not just those who think and believe the way she does.

Name: Kerri Stover

Address: Rapid City SD 57702

Meeting: City Council

Comment Type: Public Comment Agenda Item

Agenda Item: Laura Armstrong discussion

Comment:

Ms. Armstrong is accused of "advertising" businesses that do not follow CDC guidelines/require masks. On the contrary, Ms. Armstrong works for the well-being of all by identifying the businesses that DO follow CDC guidelines/require masks. Is this not her role as community leader? Is that not what science and Dr. Fauci have advised? I have seen nothing from Laura Armstrong that tells us where we should/should not shop.

How unfortunate that the health/well-being of Rapid Citians has been turned into a political football. The claims against Ms. Armstrong have twisted a citizen-serving gesture into something ugly because it did not align with others' politics. Masking isn't about politics. Rather, it is about safety for ALL during a pandemic that the best of our scientists and docs have yet to truly understand. Laura gets that.

I respectfully request that you drop this matter and support our Council President.

I agree with Stan Adelstein:

Stanford Adelstein,

“ Laura Armstrong is one of the 10 most outstanding members of the city Council in the last 50 years that I have been in close contact with city government.

Not only is she highly intelligent, an excellent listener, and a keen observer of the needs of every citizen – she is never hesitant to speak about what she knows to be the truth.

(Section removed to fit character limit)

To suggest that it is not is like saying that gravity does not exist – that Covid cannot be prevented except by God’s will – that as an elected person she does not have the right to tell this truth on any media at any time.

For the City Council to even entertain the idea of censure for integrity and honesty is outrageous.

Frankly, it would seem to me that every other member of the Council and the Mayor should honor her caring with a statement of public commendation.”

I truly cannot believe that our City is wasting time and money entertaining the witch hunt currently being led by Tonchi Weaver. This entire situation should be laughable; instead, it is outrageous and infuriating. A simple search of the history of Council President Armstrong shows a consistent commitment to building up the community. The same search applied to Tonchi Weaver shows a history of belittling others, hostility toward neighbors, and a commitment to division within the community. This is a no-brainer. Supporting the gossip and slander of Tonchi Weaver is egregious. The City should be ashamed that you've even entertained Ms Weaver thus far.

Council President Laura Armstrong continues to be a strong leader in our community, a compassionate voice for tradition AND progress, and a truly exquisite role model for my daughters, myself, and our community.

Agenda Item: Laura Armstrong's future

Comment:

I have worked with Laura Armstrong on major City issues and found her to be committed to the welfare of the City and its citizens. She is professional and well-informed. I think this attempt to remove her is strictly political -- someone doesn't agree with her. That is not a good reason to remove someone from the Council. Very quickly, there would be no one left on the Council. I also think it would make the Council and our City look bad if you were to remove another woman from the Council in such a short period of time. It would begin to look like our City has a problem with women in positions of influence. Laura has done nothing wrong. She should be retained on the Council.

Comment:

Re: City Council President Armstrong. The facts are simple and not controversial. She was part of a group that shared local businesses following CDC guideline (a valuable resource for people trying to safely navigate the pandemic). However, some claim this was unfair or akin to a boycott. I ask those people; how can you claim "persecution" when your side won? Your protesting ensured our community didn't implement a mask mandate. Why wasn't that enough? Now you insist we silence anyone who shares info on: 'Where to go'? I thought your side valued freedom? You have freedom from mask wearing and we have the freedom to shop where we feel safe. This has gotten so ugly. I am ashamed for us all. We should have come through this together. Instead, we politicized science and mask-wearing. We said those who valued public health were somehow part of a "witch hunt." Ironically, that's exactly what this is against Ms. Armstrong-- a witch hunt.

I would like to voice my support for Laura Armstrong. I am so grateful for her work for our community. She has been educated, fair, and dedicated. This city has forgotten about the compromised and elderly population. There are people who have been unable to be out and about because of the pandemic. I personally do not make decisions about where to spend my money from Facebook. I also I haven't seen anyone shaming any Rapid City businesses. What I have seen are business owners coming to the city council meetings. A quick google search makes it pretty easy to figure out which businesses a person owns. Many of these businesses owners have refused to wear masks when it is required in the city building. They have talked during the meetings, degraded the mayor, and tried to shame our city council. Maybe instead of being worried about what is or is not on Facebook these owners should instead focus upon how to show this community some compassion

Agenda Item: Laura Armstrong

Comment:

Laura Armstrong is who we need on our city council - and is who was elected by the people. Those filing complaints are in the minority. Claims of cyber-bullying are simply an attempted smear campaign. Laura did not participate in "destroying businesses" or "backlisting". Much of this hate comes from SD Citizens for Liberty members claiming Laura Armstrong to be participating in gross partiality. If that was really an issue, why is it okay for city council members John Roberts and Ron Weifenbach to speak at and attend the Citizens for Liberty meeting on December 3rd, 2020? Wouldn't that also be considered gross partiality? Not only that, but the people filing these reports have the audacity to compare the holocaust to mask-wearing (in writing under Brandon Scales formal complaint against Armstrong and multiple times from others at mandate meetings). Are you really going to side with those people?

Comment:

I so appreciate Ms. Armstrong for being willing to stand up for those in the community who feel the need to ( follow the science ) wear masks. My husband and I are in the vulnerable population due to medical conditions and our age. We choose to patronize those businesses that support mask wearing and wish all businesses would do this. However, we accept that masks are not supported by every business nor many consumers in our community. We do not support those businesses, they pose an additional risk to us, that we choose to avoid. I wish there were signs at every business stating their stance on masks. Not going to happen. Ok. But DO NOT punish someone who is trying to be of help to those in the community who are vulnerable and most at risk from this virus—especially as it continues to change bringing new risks to us.

Comment:

As a resident of Rapid City since 1994, I realize how important local businesses are. As a cancer survivor with heart issues due to radiation and a person who has lost both parents to COVID-19, it is important to me to know which places are promoting safe shopping. The Caring Business website provides valuable information by sharing which places have CDC protocols in place. It also lets me know about businesses I don't normally think of that are safe alternatives for shopping locally. If this information wasn't readily available, I would have to waste time going places, only to turn around upon entering if I didn't feel safe, or worse for the community, shopping on-line with out of town vendors. With all the negativity around, it is refreshing to have a positive site to access this information. I appreciate Laura Armstrong's compassionate consideration of residents that want or need to be cautious and for being a voice for us.

As a resident of Ward 5 I support Laura Armstrong. This seems like an unnecessary attack and word mincing. Phil Jensen, Citizens for Liberty, and Tonchi Weaver are trying to twist the intent of the Caring Businesses page drag my Ward rep through the mud. I implore you to dismiss this nonsense. Laura has done nothing wrong here. Thank you.

Comment:

I very much appreciate Laura Armstrong's initiative in trying to protect vulnerable community members by compiling a list of stores requiring masks.

I am 79. I have lived in Rapid City for over twenty years and have shopped here for over fifty years. I always wear a mask in public and much appreciate others who do so too. I do not appreciate anti-maskers berating me in line for wearing a mask and being "deluded" with no provocation from me.

Therefore, I am very much in favor of Laura Armstrong and her initiatives to keep us safer.

Comment:

Laura Armstrong is one of my council members who I'm very proud to have voted for and support with great respect. As a 68 year old woman who retired from a 30 year career because of Covid risks, I was hoping the city council could pass a mask mandate. I am grateful for Laura Armstrong's integrity in voting for her vulnerable constituents. I am so sorry for the harsh ways you are all being treated by some of our community members. We may have different opinions but intimidation isn't what I want you, my representatives to have to endure. I wish I could vote intimidating behavior out and censor it for all of our sakes. I know I can't but I can and will strongly support Laura Armstrong. We need her voice and representation here in Rapid. Please do not censor her valuable voice. Thank you.

Comment:

Dear City Council Members,

This is a letter of support for Laura Armstrong. As a woman of high risk for the Covid 19 virus as well as the primary caretaker to my mother who is undergoing Chemotherapy for Multiple Myeloma Cancer, I have appreciated Laura's advocacy and support of local businesses who are doing everything in their power to keep people like me and my mother safe. I have not felt like any of her advocacy has been negatively directed towards other businesses; in fact, quite the opposite. Please do NOT allow this slander agenda continue to go on when all she is doing is caring for her community in a way that other people have been fearful to do.

Thank you for your consideration.

Sincerely,

Molly Thompson-Vander Heyden

I'm a voter within Rapid City and I'm here to say Laura Armstrong is a great leader and a good City Councilwoman. She's been able to look beyond her own interests in support of the community and to help keep things safe.

I'm sick and tired of the crazy people in this community trying to sully the public servants of our community. If you disagree with this right wing mob, they come after and attack you.

We've got bigger fish to fry right now in this city. Let's move on for crying out loud.

Comment:

I find the "charges" against Council President Armstrong are preposterous! With a 92-year-old father-in-law in our care and a husband who battled cancer less than a year ago, I am grateful for the Facebook group highlighting businesses who engaging in safe practices. What a blessing to have places to turn for that sort of valuable information. To equate Ms. Armstrong's alliance with CDC guidelines as anywhere similar to the actions of a former city councilwoman is absolutely preposterous. I urge you to dismiss these charges as completely without merit.

Comment:

I want to express my concerns about the council possibly censuring or otherwise penalizing Alderwoman Armstrong. We all have the right to disagree about any multitude of issues, but her support of a third party list that names businesses that have a mask requirement does not rise to the level of any negative action being taken against her. You have lots of other urgent, much more important issues in front of you. That should be your focus, not this extension of the rancor that we all went through over the last few months, locally and nationally. I hope you decide to just move on. It's what the overwhelming majority of Rapid City residents want you to do. Thank you.

Comment:

I am writing in support of Council President Laura Armstrong who I have known for 20 years. Her caring and compassion for others is her primary driver and that has not wavered, even through this pandemic. I believe her intent has always been to promote healthy choices within our community. That effort should be applauded, not criticized.

The radical group of complainers who state Armstrong has done something untoward are familiar to use all. They criticize anyone who disagrees with them and will take any means to silence others. There campaign against Armstrong is more of the same. I'd ask you to not let this bullying and intimidation tactic succeed.

During this pandemic, most of our leaders have "leaned out" rather than "leaned in" to help protect our community, based on personal freedom. Freedom should also apply to those that only want to provide needed health and safety information to constituents.

I support Laura.

Comment:

Please ignore a very loud, vocal, anti-masking minority, who endanger public health while screaming personal freedom. They are irresponsible. And they seem to have Laura Armstrong in their crosshairs. I very much appreciate knowing which businesses are being responsible. Some businesses want it both ways. They can't cater to both people who refuse to wear masks and people who need to protect themselves. Laura Armstrong is a very intelligent, caring, effective council member who does not deserve to be persecuted. I am so glad to have her represent the needs and concerns that so many of us have. She has my thanks, my support and my gratitude!

Agenda Item:

Comment:

I am writing in support of Laura Armstrong. She was providing a public service by informing her constituents of business that followed CDC suggestions and requiring a mask. Laura Armstrong is my representative. I am also in a higher risk group should I contract covid. She did not say anything about businesses that didn't require lists. It was NOT a blacklist. I can't even believe that city council would consider removing her for trying to help her constituents stay safe. This whole "freedom" movement seems to me to be a way for people to refuse to help others during a very serious pandemic. Laura Armstrong IS my representative and I think she should be rewarded for her actions NOT sanctioned. Do not remove her from the council.

Comment:

Laura Armstrong has represented the needs of vulnerable people in RC and spoken and acted in a professional and ethical manner. She is acting within the rights of a citizen and advocating for a way to alert and allow citizens and tourists a means to figure out where to shop and eat to avoid exposure to COVID. Many would patron more businesses if they could feel safe. Well the result of her stepping up is to be targeted by a group that targets anyone who takes a stand or does not support their position. I hope the discussion on Monday recognizes this action by this group as a barrier to our rights as citizens and does not support this behavior.

Laura Armstrong is an asset to this city in every way and I have nothing but good things to say about her. She cares for the land we live on and all of the people on it. To even consider entertaining the idea of punishing her because a group of disgruntled science deniers had their feelings hurt is asinine. I understand though that this is the way local government works and that we must respect that, but I truly hope it will be recognized that the only thing Laura is guilty of is caring for the citizens of Rapid City - even the ones who dislike her. I support Laura wholeheartedly and hope to see her fulfill her full term.

Agenda Item: Stop harassing Laura Armstrong

Comment:

Again I write to assert the fact Rapid City has a gem of a representative in City Council...Laura Armstrong.

Do not give the faction of folks who want Armstrong out ANY consideration.

I do not need to tell you we live in tough times. The folks who (baselessly) accuse her of a facebook page that is causing their business harm because there was a 'list' of nonmask mandated businesses is TOTALLY false. I find the facebook page to be TOO mild! There has never been a "list" as I, actually, would have preferred that so that I could then explore trying to do curbside service with that business, should I need them.

Please stop this absurd demand of kicking Armstrong out. It way out of line and demeaning to those participating in this senseless demand. Take a deep breath and realize you are picking on the kindest, most energetic person you will ever meet.

Thank you, Mayor and Council members, your public service is above and beyond.

Agenda Item:

Comment:

I'm aware of the complaints towards councilmember Laura Armstrong and I cannot express my distaste enough for the hateful, inconsiderate, and incompetent citizens who have filed them. If they would've taken 10 minutes to do a bit of research, they'd see that they're wrong in their accusations. There is no abuse of power in expressing compassion and care for community. The Facebook page in question is nothing but positive - so much so that I am personally annoyed. I WISH it was a place where I could actively say negative things about businesses in this city that have no respect for CDC guidelines, but alas, it is a positive space and my comments would be removed.

I could go on, but what I mainly need to get across is that Laura is nothing but an asset to our city as a whole. Removing her from the council would do nothing but hurt our community which is always unnecessary, but especially so during this tough time.

Agenda Item: City Council Discussion related to Laura Armstrong Feb 1, 2021

Comment:

I fully support Laura Armstrong on City Council. She brings objectivity and professionalism to the Council. I believe that creating a list of businesses that require using masks per CDC guidelines is a positive for many who need to be careful or just have some assurances.

Saying that a list of businesses that do request exists is not blacklisting those that do not. It just gives people options.

Please let me know if I can be of assistance in supporting Laura Armstrong.

Please share with others that you know will have an interest in supporting Laura.

Comment:

I write to support Laura Armstrong and her work and service on the City Council. During her entire time on the Council, she has been extraordinarily responsive to her constituents and has been a thoughtful leader during an extremely difficult and divisive era in our history. I understand that opinions vary widely on the appropriate public response to the COVID epidemic. Laura has pursued policies that are and have been consistent with the recommendations of the Center for Disease Control and leading epidemiologists. For that work, she has been vilified by those who disagree with her perspective. They have every right to share their opinions, but their frustration should not become an excuse for the City Council to overturn the vote of those of us in her district who voted for her, nor should their displeasure be justification for her censure. Please reject these efforts by a minority of voters to overturn the will of the people.

Comment:

Greetings,

I have no hesitation in supporting Laura. Laura takes a holistic approach when representing the community of Rapid City.

Laura is a phenomenal leader with impeccable, and admirable ethics.

Laura has been very influential in our community.

Laura has been a champion in leading the way in breaking down barriers so that new paths of healing can form.

Laura's perspective on the community has always been from her heart which is admirable in a leader that holistically represents the community. Laura continuously creates an environment where every individual is taken into consideration.

Please consider the substantial and encouraging progress our community has made while Laura has been on the City Council representing all walks of life.

I appreciate your time and I hope that these allegations can be dismissed so the essential work can continue.

Pilamayaye.

Agenda Item:

Comment:

I do not find the Agenda for the Feb 1, 2021 Meeting of the Common Council, but my comment pertains to the proposal to reprimand, censure, or remove Ward 5 Councilperson Laura Armstrong.

I do not live in Ward 5, but I am a resident of Rapid City and serve as President of the RC Area Schools Board of Education. As such, I am familiar with the types of challenges other local officials have had to confront during the past year. Ms. Armstrong has faced those challenges with wisdom and integrity. She has represented Rapid City as a conscientious public servant and deserves nothing but our praise and gratitude. The suggestion that she should be reprimanded, censured, or even removed from office is preposterous.

Sincerely, Curt Pochardt

Agenda Item: Laura Armstrong issue

Comment:

Laura Armstrong is a dedicated, diligent public servant. She has worked tirelessly for the benefit of our city during the crisis of the pandemic. She was re-elected to the City Council without opposition. She should not be censured; she should be commended for her service.

Alan Anderson

I am writing in support of Laura Armstrong. I have watched her performance on the city council over the last few years and have developed the opinion that she is an outstanding representative of the best interests of the people of Rapid City and a fine human being. I believe that her actions during the issue regarding face masks is an example of that opinion. She acted in the best interest of our public health in the face of some very harsh, and I think misguided, opposition. I think that kind of courage should be rewarded and not be subjected to retribution by a vocal few.

In addition, I think that the mayor and the city council worked hard (in a stressful environment) to protect our public health during this epidemic. I think the current opposition to mask wearing by some, although vocal, is not the majority opinion in this community. I did not speak up in your support during the previous meetings when you were trying to do the right thing. For that I apologize. I urge you to maintain the courage to vote for the best interests of the public in general and not be intimidated by those who insult and threaten. I will try to do the same.

Heather Hoeye

Good Evening, I received my kidney transplant in August 2019. Like most transplant recipients, what followed were months of tweaking drugs and trying my utmost to be careful and safe due to my newly repressed immune system. Covid added a whole new layer of worry about how to do this, which leads me to my comment on Ms. Armstrong. Her co-creation of Caring Businesses on Facebook has been a great resource for immunocompromised people. By it's creation, she was helping her community. This is what she has been elected to do. Having information regarding business protocol allows me to make choices to keep myself safe. Does everyone need to use it or make these choices? Absolutely not. But it could be life saving for me. Caring Businesses is a page like any other interest page on Facebook. If someone is trying to attack Ms. Armstrong over a page that is transparent about its goal, allows freedom of choice, and is bringing awareness to our local businesses- perhaps we need to question whether the attack is over a FB page, or if someone has a personal agenda.
