Meeting: City Council

Agenda Item (for comment on a specific item)): abused woman

Comment: I would like to set up donations from rich people to get tax write offs if donating food to the woman and child shelter off 5th street. basic needs like milk butter fruit fresh meat. I got sick off of bad chicken 2 times. no milk butter only apple. seems new Civic Center is more important than homeless abused woman hungry. I am deeply sad and offended at this community and the Disability act that is neglected. Tiffani Hudelson aka Bley
