DISCUSSION FROM THE PRESIDENT, BOARD MEMBERS AND STAFF
12) Recognition Lindsey Martin, Airport Administrative Coordinator – Dame thanked Martin for her service at the airport. She is moving to Rapid City Public Works Department with a farewell party scheduled for February 10.
13) Director’s Report – Dame outlined the Bipartisan Infrastructure Plan (BIL) and the amounts that the airport will receive, and the intent to apply for additional grant funding available through the legislation. He stated he worked with the State DOT and local legislators to ensure a state match for those grants, possibly increasing their support to previous levels. He has been working to get the CIP situated so that the airport can receive as much funding as possible through the program. BIL has specific funding for terminal projects. An IFE has been ordered for the design of the terminal project and the associated task order will be presented to the Board soon. He also discussed the need to fill in some additional pavement for aircraft storage as part of the terminal project. This design task order will also be forthcoming. One bid was received for the sewer project and negotiations are being held to try and lower the cost. An item of concern is the cost and delivery time of a fixed generator so an option for a portable generated may be considered, which could lower the cost. A second meeting in February will be scheduled for the Board to consider these items and award the sewer bid. Tod Love, Airport Operations Manager, informed the Board that we are currently testing new Part 139 compliance software, AeroSimple, with the intention of moving to that platform in March. The new software contains modules for Part 139, work orders and lease management.

ADJOURNMENT
At 9:38 AM Haar made the motion to adjourn, second by Thomson, motion carried.

Respectfully submitted,

Shawn Gab
Board Secretary
