Notice of Intent to Apply

Funding Opportunity EPA-I-OLEM-ORCR-23-02

EPA Headquarters,

On behalf of the City of Rapid City Solid Waste Division, I submit this email as a notice of intent to participate in the Consumer Recycling Education and Outreach Grant Program. We intend to ask for upwards of \$2,000,000 under Track 2.

Our intent is to use this grant money to expand our current marketing and education programs to continue to educate the public about what we accept for recycling in our local area. We have recently purchased some Virtual Reality headsets for our education program and would like to expand into having more headsets to make it more accessible to larger crowds.

Thank you for all of your efforts.

Sincerely,

Jeff Barber
Solid Waste Superintendent
