Subject: RE: Wisebeck

I've spoken to Cory Weisbeck the owner, also cc'd to this transmittal.

The owner would like to withdraw the sidewalk variance request, and will move forward with constructing the sidewalk per the agreed upon plan in conjunction with the building permit for the balance of the property.

Roger/Todd;

With regards to the sidewalk exception for Cory Weisbeck.

Pursuant to yesterday's conversation, I propose the following sidewalk improvements, installing a 5-foot wide sidewalk with a 4-foot boulevard. This would eliminate cutting down a bunch of mature trees.

Is this acceptable to the City to meet the requirement?
