INTRODUCTION

Overview
The Rapid City Area Metropolitan Planning Organization (MPO) in conjunction with the South Dakota Department of Transportation (SDDOT), the Federal Highway Administration (FHWA), and the Federal Transit Administration (FTA) is soliciting proposals from qualified consultants to develop a Transit Feasibility Study to determine the viability of an expanded public transportation system in the Metropolitan Planning Area (MPA). The study will evaluate needs, consider alternatives, recommend implementation strategies, and consider economic development. It is anticipated that the Transit Feasibility Study will also assist with applicable transit funding possibilities and requirements.

Background
The MPO includes the City of Rapid City, the City of Box Elder, the City of Summerset, the City of Piedmont, the Rapid City Area School District #51-4, the Meade County School District, the Douglas School District, Ellsworth Air Force Base, the unincorporated areas of Black Hawk and the developing areas of Pennington County and Meade County, SDDOT, FHWA and FTA. This includes the existing urbanized area and the area which is projected to become urbanized within the twenty year horizon of the Long Range Transportation Plan. The project area includes approximately 474 square miles (See Attachment A for complete coverage area). Currently, the main existing public transit provider, Rapid Transit System, operates within the city limits of Rapid City and does not provide service to the surrounding communities and unincorporated areas of Meade and Pennington counties. Transit services from outside of the MPA provide limited services within the Rapid City area.

The MPO adopted the Coordinated Public Transit-Human Services Plan in August, 2013 and the RapidTRIP 2040 Long- Range Transportation Plan in September 2015. During the development of these plans, public input revealed a desire by the residents of the areas surrounding Rapid City for public transit to be expanded to provide access to employment, education, shopping, medical services, and recreation.

Various human service agencies currently provide transportation services to their clients throughout the MPA. These services are focused toward select demographic groups to provide access to specific activities, including programs for senior citizens, medical services and programs, and services for persons with disabilities.

Project Details
The Transit Feasibility Study is being undertaken to determine the viability of public
transportation throughout the MPA. The results will determine how to proceed with public transit in the future as the study will show public need and benefit, probable users, analysis of alternatives, and a recommendation on the best alternative that fulfills the public transit needs of the MPA. It is critical that the study identifies the transit features, characteristics, and options that meet the local goals and objectives: financing alternatives and building on existing facilities and partnerships; and mitigating any possible adverse impacts from the recommended strategies.

The primary objectives of the study are:

- Convene a stakeholder group
- Identify baseline conditions including data collection and analysis
- Determine unmet transportation needs and options for new services
- Develop strategies to meet needs, including service, cost, and alternatives
- Evaluate alternatives to provide recommendations and an action plan

**Current Transit Service**

Rapid Transit System, based in Rapid City, provides both fixed-route and complementary paratransit services within the Rapid City city limits.

Rapid Ride, the fixed-route bus service, operates six routes within the city limits. Each route includes two separate segments, such as a north run and a south run. Each segment runs on 35 minute headways with all transfers occurring at the Milo Barber Transportation Center, located at 333 Sixth Street in Rapid City. All buses are accessible to meet special needs of passengers.

The hours of operation are from 6:20 A.M. through 5:50 P.M. on weekdays and 9:50 A.M. through 4:40 P.M on Saturdays. There is no service on Sundays.

The fare for adults is $1.50 per trip. Honored citizen (60 years and older), persons with disabilities and Medicare card holders pay half-fare of 75 cents. Children who are school aged and younger are free. Monthly passes are available for adults for $30. Transfers are free.

If the proposal includes effort by subcontractors, a similar budget table should be included for each subcontractor.

Out-of-state travel, which is defined as travel between the consultant's base and destinations other than South Dakota, must be identified separately. All travel between the consultant's home base and South Dakota should be recorded as in-state travel.

Indirect costs listed in the budget must be substantiated if and when the proposal is selected. Prior to the first contract payment, the successful proposer must submit documentation supporting the bases and rates used to calculate indirect costs by the prime contractor and each of the subcontractors. Examples of indirect cost schedule formats can be found in Chapter 9 of the *AASHTO Uniform Audit & Accounting Guide* located at: [http://audit.transportation.org/](http://audit.transportation.org/).

Total funding should not exceed the amount indicated as "Funds Available" on the Request for Proposal. This amount represents what MPO feels the project merits and what level of funding should be necessary to complete the work. Proposers should set the scope and depth of the project accordingly. Because of budget constraints, additional funding is highly unlikely. No budget expansions should be anticipated.
9. **Certification Regarding Debarment, Suspension, Ineligibility And Voluntary Exclusion – Lower Tier Covered Transactions:** By signing and submitting this proposal, the respondent certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation, by any Federal department or agency, from transactions involving the use of Federal funds. Where the offeror is unable to certify to any of the statements in this certification, the bidder shall attach an explanation to their offer.

10. **Non-Discrimination Statement:** The City of Rapid City, in conjunction with the State of South Dakota, requires that all contractors, vendors, and suppliers doing business with any State agency, department, institution or recipient of pass-through grants, provide a statement of non-discrimination. By signing and submitting their proposal, the offeror certifies they do not discriminate in their employment practices with regard to race, color, creed, religion, age, sex, ancestry, national origin or disability.

11. **Modification Or Withdrawal Of Proposals:** Proposals may be modified or withdrawn by the offeror prior to the established due date and time. No oral, telephonic, telegraphic or facsimile responses or modifications to informal, formal bids, or Request for Proposals will be considered.

12. **Proprietary Information:** The proposal of the successful offeror(s) becomes public information. Proprietary information can be protected under limited circumstances such as client lists and non-public financial statements. Pricing and service elements are not considered proprietary. An entire proposal may not be marked as proprietary. Offerors must clearly identify in the Executive Summary and mark in the body of the proposal any specific proprietary information they are requesting to be protected. The Executive Summary must contain specific justification explaining why the information is to be protected. Proposals may be reviewed and evaluated by any person at the discretion of the State. All materials submitted become the property of the State of South Dakota and may be returned only at the State's option.

13. **Governing Law:** Venue for any and all legal action regarding or arising out of the transaction covered herein shall be solely in the State of South Dakota. The laws of South Dakota shall govern this transaction.

14. **Discussions With Respondents (Oral Presentation/Negotiations):** An oral presentation by a respondent to clarify a proposal may be required at the sole discretion of the MPO. However, the MPO may award a contract based on the initial proposals received without discussion with the respondent. If oral presentations are required, they will be scheduled after the submission of proposals. Oral presentations will be made at the respondent’s expense.

This process is a Request for Proposal/Competitive Negotiation process. Each
Proposal shall be evaluated, and each respondent shall be available for negotiation meetings at the MPO’s request. The MPO reserves the right to negotiate on any and/or all components of every proposal submitted. From the time the proposals are submitted until the formal award of a contract, each proposal is considered a working document and as such, will be kept confidential. The negotiation discussions will also be held as confidential until such time as the award is completed.

One (1) original and four (4) copies of the proposal document should be submitted, along with one (1) scanned submittal in pdf form. The Proposer’s response should contain only the information requested. All cost proposals shall be valid for a period of not less than ninety (90) days from the date of receipt. Articles should be submitted to the following address by the proposal receipt date and time specified:

SCOPE OF WORK

The MPO is interested in receiving proposals from a consultant possessing experience with Transit Feasibility Studies and a proven record of accomplishment when working with FTA.

The Transit Feasibility Study work elements include:

A. Purpose and Need Statement: The purpose and need statement will form the basis for developing goals, objectives, and the evaluation criteria used for the study. The consultant is expected to interact with Rapid Transit System, FTA, the MPO and its member agencies, SDDOT, the private transportation providers, and others as required to complete the process.

B. Public Participation: The MPO desires to involve all stakeholders throughout the MPA. Currently, there is no public transit service outside of the Rapid City city limits, and many of the residents of the surrounding area have not been involved in the discussion of transit service but will benefit from the enhanced regional connections via transit. The engagement of these residents and communities is a critical element of the Transit Feasibility Study and will require effective outreach and communication skills.

The MPO requires a consultant with a proven track record of community engagement in regards to a discussion of transit alternatives and concerns. The consultant should possess the skills to analyze transit issues and alternatives, and communicate with area residents on feasibility, funding possibilities, and financial constraints. The MPO will assist the consultant with the development of an effective Public Participation plan. This shall include project information provided by the consultant to be placed on the websites of the MPO and the member agencies to update the projects status and opportunities for public involvement. Public participation opportunities include, but are not limited to, the following:

- **Steering Committee:** The consultant will develop a Steering Committee meeting schedule and the MPO will assist with meeting space and communications coordination.

- **Stakeholder Interviews:** In order to involve as many participants as
possible, the MPO requests that interviews be held with an approved list of stakeholders. The consultant will be responsible for scheduling and coordinating the interviews.

- **Focus Groups:** Public support of an expanded transit system is crucial to the success of the study. The consultant should hold focus groups with area decision makers and business leaders to inform, educate, and receive feedback on the study.

- **Public Open Houses:** The consultant will coordinate with the MPO and hold a series of public open houses to gather input on transit needs, to inform the public on the study process, and to receive on proposed transit alternatives and community impacts related to the Transit Feasibility Study.

- **Surveys:** The consultant will be responsible for any surveys used to obtain current information on transit needs in the MPA.

**C. Development of Alternatives:** The consultant will develop a broad range of potential alternatives that address the purpose and need, provide details on the methods used to review and rank the alternatives, and conduct initial and final alternatives recommendations on an expanded transit system for the MPA.

**D. Develop Transit Criteria:** The consultant will evaluate alternatives based on criteria that will determine whether an alternative is reasonable to pursue. The analysis should involve impacts on the transportation system, mobility, and travel patterns, and consider barriers to implementation of the alternatives.

**E. Evaluate Costs, Benefits, and Impacts:** The consultant will evaluate all reasonable alternatives to provide for an expanded public transit system. The evaluation of the costs, benefits, and impacts should focus on the pros and cons between alternatives. As a part of the study, the consultant will be required to any possible impacts that the transit program may have on minority and low-income populations. Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, or national origin in programs and activities which receive Federal funding assistance.

**F. Develop Ridership Forecasts:** The consultant will develop ridership forecasts based on the results of the community surveys and available data regarding land use, economic development, and population and employment growth.

**G. Develop Organizational and Operational Plans:** The consultant shall develop organizational and operational plans for the alternatives that include standards of service, facility and stop locations, days and hours of operation, type and number of vehicles, travel times, fare structure, peak load capacity, and...
vehicle/passenger miles and hours traveled.

**H. Develop a Comprehensive Transit System:** The consultant will review the existing transit services provided by other organizations and agencies in the MPA and determine the level of additional transit services required to serve the population of the MPA. Identification of transit enhancements can be developed in phases. The proposed expanded transit system must determine the feasibility of the program and identify possibilities to serve residents not serviced in the initial phases.

**I. Develop Operating Financial Plan:** The consultant will develop an operating financial plan which includes factors that impact financial projections. The financial plan shall include both Capital and Operations and Maintenance costs.

(1) Compliance with Regulations: The contractor shall comply with the Regulations relative to nondiscrimination in Federally-assisted programs of the Department of Transportation, Title 49, Code of Federal Regulations, Part 21, as they may be amended (hereinafter referred to as the “Regulations”), incorporated by reference and made a part of this contract.

(2) Nondiscrimination: The contractor, with regard to the work performed by it during the contract, shall not discriminate on the grounds of race, color, religion, national origin, sex, age or disability in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The contractor shall not participate either directly or indirectly in the discrimination prohibited by section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.

(3) Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations either by competitive bidding or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by the contractor of the contractor’s obligations under this contract and the Regulations relative to nondiscrimination on the grounds of race, color, religion, national origin, sex, age or disability.

(5) Sanctions for Noncompliance: In the event of the contractor’s noncompliance with the nondiscrimination provisions of this contract, the South Dakota Department of Transportation shall impose such contract sanctions as it or the Federal Highway Administration may determine to be appropriate, including but not limited to:

(b) cancellation, termination or suspension of the contract, in whole or in part.

(6) Incorporation of Provisions: The contractor shall include the provisions of paragraphs (1) through (6) in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives pursuant thereto.

Provided, however, that, in the event of a contractor becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, the contractor may request the South Dakota Department of Transportation to enter into such litigation to protect the interest of the State, and, in addition, the contractor may request the United States to enter such litigation to protect the interests of the United States.
