ALDERMAN ITEMS & COMMITTEE REPORTS

13) PW11291-13 – Wright asked Rita Wagner to clarify the need for the money they have requested to fix the roof of the senior center. Wagner stated their budget is in dire straits and their cash reserve is very limited in the amount of $10,000. If anything else were to happen, they may be forced to close. Roberts explained there were three repair estimates ($2,500, $12,000 and $16,000) the actual cost of the replacement of the roof is well over $100,000. Roberts brought this forward as a council member and also as a board member of the Minnelzahan board. He stressed the center’s limited funds and the unexpected maintenance costs that were not budgeted for this year. The board believes that since this is a City owned building, the roof should be paid for by the City. Wright questioned details of the lease. Finance Officer Pauline Sumption stated the lease goes back to the 1970s but it does say in the lease that Minnelzahan is responsible for maintenance type things. The City does not charge them any rent to use the facility. She said the quotes she received were for $1,000-2,000, those are for repairs. If we were talking about a complete roof replacement, this would not be considered a maintenance item and it would be the City’s responsibility. But when it is a small $1,000-2,000 maintenance fix, under the current contract, is considered a maintenance item. Modrick asked Rita Wagner if there is any liability insurance that could be responsible for the damage. Wagner does not believe there has been any claims, she has only been with the center for a couple of years. Modrick asked if there was any plans to increase their dues in an attempt to get their funds back up. Wagner stated they are not planning to raise the dues. The dues were raised two years ago to $20 per year. Laurenti asked Wagner what the estimates covered and how much would it cost to cover the critical repairs. Wagner outlined the quotes as follows: $1,000 quote
was basically for someone to go in and do some calking in areas which in her opinion was a band aid approach, the $2,500 quote was a little more extensive, and the quote they felt was the best was around $13,000 and this would be more extensive work by lifting up the membrane and sealing it appropriately. Laurenti asked why they have not considered doing the $2,500 repair. Wagner stated they feel that since it is a City building and the age of the building they just keep having to repair more and more. As far as she knows, they have not put any money into the roof for the past 2-4 years. The roof issue at hand has been progressively getting worse since she has been there. Laurenti feels that this issue would be prudent to maintain the roof as things come up so it does not become a more expensive repair. He is in favor of doing what the City needs to do, but when there is a MOU in place, we need to uphold them. Sumption explained that if we need to do a roof repair, we would have to go through the CIP Committee to have that money set aside. Roberts feels that that the lease is very undefined and typically the roof is usually a part of the structure and not maintenance. He feels the MOU is very vague and it is time they renegotiate. Wright moved to take Discussion on Minneluzahan Senior Center Roof Repair to Council without recommendation. Second by Laurenti. Motion carried.
