

Proposal

To: Mr. Rich Sagen
Rapid Transit

March 7th, 2017

**Project: Rapid Transit
Video Management System
Point-to-Point Wireless Solution / Parking Ramp-Milo Barber**

Mr. Rich Sagen:

Johnson Controls, Inc. (JCI) has prepared the following proposal to provide a turnkey solution for the installation of a point-to-point wireless solution in efforts of interfacing with the newly installed video management system serving the parking ramp.

Below you'll find our equipment summary and proposed scope of work:

Base Bid: \$ 5,662.00

Base Bid - Bill of Materials:

<u>Qty.</u>	<u>Model #</u>	<u>Description</u>
+1	LOT	Minuteman UPS
+1	LOT	Point-to-Point Wireless Solution
+1	LOT	Wall Arm
+1	LOT	Samsung LED Display
+1	LOT	Keyboard/Mouse Combo
+1	LOT	Pro i7 Video Client
+1	LOT	Labor, Electrical Installation and Field Terminations
+1	LOT	Labor, Owner Training

Scope of Work:

- This proposal covers a complete point-to-point wireless system for the video review between the Rapid City Parking Ramp and Milo-Barber. This solution includes an endpoint client capable of 24 simultaneous live streams from the Milestone Recording Server. Also included is a battery backup to prevent power loss on the Recording Server for short periods of time.

Assumptions:

- Work will be completed during normal business hours.

Included:

- 1 year parts and labor warranty
- Applicable Taxes
