Subject: Prestwick Development

Vicki,

We live on the east side of Prestwick Rd. across from the proposed development. The density of the housing going in across the street is a concern to us. Speeding traffic coming down the hill is already an issue and putting 13 more houses on that street will only compound the issue. Matching the lot size on the western side (with the exception of Walla's double lot) for what is on the eastern side would be preferred.

Thanks for hearing us Vicki,

Patrick Dame
