Hi

Lazy P6 would like this placed on the next available PWC agenda.

They have several questions, including when did DE requests become like rezoning - neighbors get to object? The neighbor objects to P6 giving them the latitude to set an H/V for Elm that is acceptable to them?

Also, could one of you copy the Elm St WORP that accompanied the original Gemstone Plat and link it to the PWC item? Also, a snapshot of the MSP in this area that shows Elm St north well off the property line.

P6 wants you to confirm that the request was for Sandra, which is not on the adjoining property at all.

Please call with questions and advise of scheduling progress. Thanks.

Re: Request for Exception to waive the requirement to design/build the balance of Sandra Lane to the eastern limits of Lazy P-6 property.
Located in a portion of Government Lot 1, Section 19, T1N, R8E, B.H.M., Pennington County, SD

Dear Mr. Kostaneski,

The Request for Exception to Section 16.16.040 of the Rapid City Municipal Code of Ordinances to waive the requirement to extend Sandra Lane as it abuts future Lot 20 is denied.

Section 16.16.040 of the Municipal Code states in part “Where appropriate, proposed streets shall be extended to the boundary lines of the tract or parcel to be subdivided in order to ensure access to adjoining parcels. Property abutting a proposed subdivision shall not be left land-locked by such proposed subdivision. ...”. Currently there are no platting related requirements to extend Sandra Lane beyond the southern limits of proposed Lot 20. The approximately sixty foot extension of Sandra Lane adjacent to proposed Lot 20 should be completed in conjunction the platting of Lot 20 to prevent future hardship on the future owner of Lot 20.

Additionally, the Owners of the property immediately east of Lazy P-6 property are exploring options for development of their property and have stated their opposition to waiving any subdivision improvements adjacent to their property.
