Subject: Sidewalk variance request

I am writing to you for a sidewalk variance on Lot 20 Block 1 of Gemstone Subdivision. I wish to build a residential home on Lot 20, but if you look at the east end of Sandra Lane, it ends short of Lot 20. Sandra Lane will someday connect with Elm Street, but at this time there is no elevation on final plans to extend Sandra Lane, which makes it impossible to install the sidewalk on the south side of Lot 20 Block 1. I propose to install sidewalk only to the end of Sandra Lane, then at a later date when Sandra Lane goes through to Elm Street, then extend the sidewalk as needed.

Thank you,
